## Customer Reviews

The illustrations are beautiful. However, they left out key parts in the movie from the book, and included insignificant parts. This book goes into too details parts about romantic love, getting married, and betrayal by a man (Hans) - little girls (under 10) don't care to know about those things, and shouldn't be exposed to those topics so early.I know that the movie had those topics, but it didn't seem to dwell on them as much as the book does.

Great product, fun story. Reminded me of my read along books as a child. Keeps my 5-year old interested and the best part is she wants to do it all on her own! Great for beginning readers, will buy more like this for sure!

If you have a Frozen fan in the house then this is a great book for readers and pre readers. I was surprised at how long the book is, but that makes it nice when listening to the CD. The CD does have the voices of the characters saying some of their lines which was a nice touch and made my girls like it more.

My 4 year old granddaughter loves this magical story! She usually reads these Read-Along books while in the car however this book is one of her 4 favorites that she reads at home as well. I love this story myself. It's great! The book is so beautifully illustrated with such vibrant color and realistic looking characters and scenery.

This is a great book and such a great reminder of the movie. We like to use the book both with reading it as well as with the CD. My daughter loves the book, and no sooner do we get to the end she is asking for us to read it again, ahem...queue the CD ;)

This was a Christmas present for my 8 yr old daughter and even though she can read she loves to read along when she is tired and really loves this audio book.

My grand daughter loved this. The sound is great, just like the movie! The little chimes make it easy to know when to turn the page. She is 4. Even Grandpa enjoys the story over and over!

These stories are good, and the CDs give great sound effects from the film, but they run so long that the kids get bored of hearing it before the book is finished. They should cut about 5 pages from the length because the age group these books are meant for is very young, and the book is way too long for them.
