The Book Of Jubilees

Synopsis

The Book of Jubilees, sometimes called Lesser Genesis (Leptogenesis), is an ancient Jewish religious work of 50 chapters, considered canonical by the Ethiopian Orthodox Church as well as Bete Israel (Ethiopian Jews), where it is known as the Book of Division. Jubilees is considered one of the pseudepigrapha by Protestant, Roman Catholic, and Eastern Orthodox Churches. It was well known to Early Christians, as evidenced by the writings of Epiphanius, Justin Martyr, Origen, Diodorus of Tarsus, Isidore of Alexandria, Isidore of Seville, Eutychius of Alexandria, John Malalas, George Syncellus, and George Kedrenos. The text was also utilized by the community that originally collected the Dead Sea Scrolls. It was so thoroughly suppressed in the 4th century that no complete Hebrew, Greek or Latin version has survived.

I have other editions of the "Book of Jubilees" and this is a no-frills, solo scrip torus version of the book. There are other books with a lot of Hebrew and Greek references in foot notes, that I would recommend over this particular edition. But if all you want are the scriptures without the added references, this is a good choice!

this missing book was well worth the read I could not put it down I read it in all in one night !!

Not quite what I expected, but very detailed and kind of hard to read and understand, but good. I do like it.

This book aligns well with the bible and explains in dept certain accounts and timelines of characters.

It was not the complete book. Maybe the seller mentioned it and I forgot. I had to buy another book

This an old book of history for anyone wanting to check what was happening I bible timea

Picture on book is misleading, as this is not how the ancient Israelite look.

This book puts a lot of the missing pieces of the bible together.
