The 100+ Series Intro To Geometry

Synopsis

Intro to Geometry links all the activities to the NCTM Standards and is designed to provide students with practice in the skill areas required to understand basic geometry concepts. The activities focus on congruence and similarity, classifying various kinds of angles and triangles, transformations, parallel and perpendicular lines, properties of geometric figures, arcs and chords, and finding surface area and volume. Examples of solution methods are presented at the top of each page and puzzles and riddles help gauge the success of the concepts learned. Each activity has been linked to the related NCTM standard and is identified in the table of contents. Includes answer key. v

Book Information

Series: The 100+ SeriesTM

Paperback: 128 pages

Publisher: Instructional Fair; Revised edition (April 29, 2003)

Language: English

ISBN-10: 0742417778

ISBN-13: 978-0742417779

Product Dimensions: 8.4 x 0.4 x 10.9 inches

Shipping Weight: 9.6 ounces

Average Customer Review: 3.8 out of 5 starsÂ [See all reviewsÂ \(5 customer reviews\)](#)

Best Sellers Rank: #769,719 in Books (See Top 100 in Books) #84 inÂ Books > Children's Books > Education & Reference > Math > Geometry #184162 inÂ Books > Reference

Age Range: 10 - 14 years

Grade Level: 5 - 8

Customer Reviews

The format of the book is good, which is why I bought a copy. Unfortunately, shortly after beginning to use it, I found that there were more mistakes in the examples and answer key than I could count. I ended up doing all of the pages just to have an answer key, which was time consuming and which I did not appreciate from a book that claims to make teachers' lives easier by including an easy-to-read answer key. I strongly suggest some revisions ASAP.

I agree with the first person to review this book that it is full of mistakes. It is a waste of time and money. Book needs new revisions.

great for the beginner learning in geo. I've been homeschooling for 15 some yrs. now and this is just clicking

Love it. Great to do one on one work or review with students. I really like the variety of work in it.

very good for kids to do during summer
