Customer Reviews

its a great series but like the anime it seems they don't want to finish releasing the rest only a few volumes left. i think only two 36 and 37. i have read it completely from start to finish online and it would be a waste if they don't complete its release. one of the best series that has completely been underestimated. has surpassed my expectations and i love it.

Im very sad this will only come out yearly now. Such a great run

Solid volume, would rate it at 8.5/10. Does a great job of ushering in the final conflict. However it seems as though Kodansha Comics doesn't know whether it will actually finish the series off or as already decided to ice the series again. Other series have future volumes scheduled into next year (with sequels typically appearing 3-4 months later), while Kodansha has refused comment on Air Gear. Will revise my review if the series is continued, if not, don't support an incomplete work and effort.

Awesome book!
