Ever since I read Hand of Fate by Lis Wiehl and April Henry I've been hooked on the Triple Threat Club. The three friends, Cassidy, Nicole and Allison call themselves the Triple threat Club ever since they shared that wonderful dessert with more.chocolate.than.the.law.should.allow! Their friendship and love of all things chocolate has endeared them to my heart...like long-lost-friends. But wait...ahhh! oh!no! one of the three is killed and the other two are out to find the killer...ahhhh! I sure didn't see this coming and not sure I like it but oh!too!real!Now the team of two friends are in a deadly and intense "game" of cat and mouse...seeking a killer who seems to know their every move. The reader is taken through the judicial system, what really happens in an FBI office and taken through the "hoops" of the TV station. Very realistic and yet, imaginative! There are more twists and turns than a dark mountainous road on a rainy evening! Just when the reader thinks "I know who did it!", boom another twist. I love how the authors weave a great story combining chick lit, suspense and a not-preachy but stay-on-the-right-track read. This is a stand alone read but I suggest that you read the others too...it will give you the background for the tight knit friendship and why we will all mourn the loss of one of our Triple Threat Sisters. Even though the authors have brought in another to replace the deceased, I am curious if there will be any more Triple Threat mysteries? I'd love to see this series continue!*This book was provided for review by BookSneeze/Thomas Nelson Publishing*

In this newest installment of the "Triple Threat Club," one of them is murdered. It is so unexpected, so devastating, and all the remaining two can think of is catching the killer. But, the killer may be out to get more than one member of the group. A new character arrives on the scene. Her name is Olivia and while she is young and rich, she is also reclusive and picky about what she does with her time. As a PI she can be. This is a case she wants to help with and dives in. While the investigation takes her places she doesn't want to go, she is after the truth. Will the killer discover who she is and mark her for murder too? Why are Cassidy, Allison, and Nicole targets? Is this fourth novel the end of the series? Come join the ladies in their hunt for a killer. I was shocked when one of these ladies was murdered and the others became targets. I have really enjoyed reading about these three strong female characters and didn't want any of them to die. But.... Lis Wiehl sucked me right into the story again and it wouldn't let me go until I finished. Olivia was an interesting character to add to the story, and I enjoyed learning more about the others. I recommend this book to all

mystery/suspense/murder book readers. You will not be disappointed!

This is basically James Patterson's Women's Murder Club series with a Christian subtext. If you like his books and you like your characters praying and quoting scripture or otherwise, you will likely find this one enjoyable. It is my opinion, however, that James Patterson's characters and his WMC series are superior. This was the second book in the Triple Threat Club series (but it is actually the 4th installment) that I have read and, though I tried again to give it a chance, I was left unsatisfied and slightly annoyed. It can be read as a stand alone as there is not enough depth to the characters to require that the reader have read the other novels. Without giving any spoilers, I will say that the way this author manipulates the various characters does not bode well for much followup or any point to continuing the series. I developed absolutely no connection or attachment to them nor particularly cared about what happened to them. The story plodded along with lots of foreshadowing and predictability. It wasn't very suspenseful or thrilling. I won't read another.

When I picked up this book, I was expecting a story more like the last one I read. A murder, and the three ladies look to solving it. That all happened, but I wasn't prepared for one of the main characters to become a victim. Then I kept reading, mainly because I was more interested to know how the remaining two would solve it. Funny how two become three once more with Ophelia coming into the picture, and again the mystery was solved. I really enjoyed how it all came together. That says a lot, considering I only read book 3 in this series. I had just been lured in, and one is gone, and it still kept my interest. I also think even if you haven't read a previous book in the series, you won't get too lost or even notice. The mystery is that good, it is really all you focus on while reading. So another hit in this series, for me anyway. I think most of you would agree if you read it. 4.5/5

This is the best book of the series, one of the Triple Threat is murdered. The other two work to solve the crime, there are so many twists and turns- no spoilers here. Another very clean story (although there is violence), a little religion, and the loyalty of good friends.
