Slayers: Woman Of War

Synopsis

Barbarian babes brandishing blades! Always a fun topic of discussion, but in the talented hands of painter JosÃ© del Nido, that topic transcends mere eye candy and inspires actual shock and awe! These are truly stunning portraits that celebrate the terrifying beauty of fighting females! There are few artists who can bring such power and emotion to such VERY dangerous females, but del Nido certainly ranks among the finest!

Book Information

Not what I was expecting. Women of war I was thinking a lot more gore and skulls, but still as far as art work some of these ladies look to real to be illustrated and definitely are badass.

Very nice artwork .

I'm really impressed by these lovely, full-color images of gorgeous women who can kick @ss! One of the nicest fantasy art books I own, just wish it were in hardcover. Highly recommended!

Nice
