Customer Reviews

I love it because even though the story is simplified for children to understand, it does not lose content and is Biblical sound. Also, I've been looking for books that would engage my children's attention, and they absolutely love the pictures, colors and all the details in every page. I am very happy with this collection, and I wish there were more books, specially on the OT prophets.

This is a good book for young students to learn about Noah. This book is also Accelerated Reader. The students love reading books on the Bible.

We love these little beginner reader books. Great little bible stories for the new reader, my sons and

daughter love them.

Noah and his Ark have been "told" so many ways over the years - this is such a colorful and interesting "short nap.bed time story"
