The Race To The Moon (You Choose: History)

Synopsis

It's the 1950s and 1960s, and the United States and Soviet Union are in a race to be the first to reach the moon. Will you: Participate in the space race as a young scientist working on early rocket technology? Experience the space race as a reporter following space firsts in both the Soviet Union and the United States? Work as a member of Mission Control during the 1969 moon landing? Everything in this book happened to real people. And YOU CHOOSE what you do next. The choices you make could lead you to opportunity, to glory, to shattered dreams, or even to death.

Customer Reviews

My daughter normally loves these books, but this one really made her mad and disappointed. Why? Because she wasn't given the option to be an astronaut! The choices were for things like Mission Control and other positions at NASA. We thought with a title of "Race to the Moon", an astronaut would be one of the options. Silly us.

I liked how you could choose different paths.I would recommend this book to my friend.I gave it a

three out of five star rating because I kind of liked it because you could choose your own path but I've also seen better books and worse.
