I, for some reason, never seen the episodes that covered this omnibus when I was a kid and it was airing on TV. So reading this was a good treat, especially with a couple of the characters that show up are either mentioned or reappear in later arcs. Nami's compass leads the Straw Hat crew to a place called Little Garden, an ironic name when you learn what type of creatures and the two local residents. The crew splits up as they explore and they meet up and fight Baroque Work members and the leader of the organization is reveal (who happens to be one of my favorite One Piece villains).

Elbaf! Or as twin peak's demons would call it "Fable". More of that foreshadowing and part of the whole Ussop's tales coming true. This is really where the long arcs start coming into focus and the 1/1 2/2 fights progress into pretty lengthy chapters. Oda seems to have gotten into his writing groove here when he was putting all together.

The Alabasta Saga continues with "Zolo" fighting bounty hunters, the crew and Vivi in Little Garden, and it all ends with an avalanche that threatens to swallow Sanji, Luffy and a helpless Nami! 600 Pages at better value than buying individually! Great for frugal One Piece fans. What Are You Waiting For... Order Now Nakamas!!

It came a day before expected. The book is in excellent quality. The pages are in good shape as well as the cover art. Very pleased with the service!

A must read. One of the best manga I have ever read. If I could pick one series for any one to read it would be one piece. Highly recommend

This is a great buy. I like to get all the volumes in one book if I can. This book is a bargain and lots of fun to read.

Received these books exactly as expected and on time as well. Would definitely order again. My son loves this series.

Again if you want to collect one piece, this is it. 3 in 1 and great paper quality. This is a deal
