Synopsis

EXCEL QUICK is designed for business students and professionals who need a quick understanding of Microsoft Excel 2010. The goal of this tutorial is to get you up and running in Excel within one hour. This textbook offers many real world illustrations and hands-on examples. This tutorial covers Excel 2010, but also includes prior versions of Excel 2007, Excel 2003, Excel 2002 XP, and Excel 2000, discussing the differences where they exist.

Customer Reviews

The book covered things generally and fort the novice it was the best, but I have a little more experience so I felt that the professor wasted my money

Got it on time. book was in good condition. I was hoping it would come with the CD. It was still cheaper than the school bookstore.
