I am happy with this book's quality, but specially, my son is HAPPY with this book, He loves it!!! That makes me happy, it is more than a book for him... He opens his eyes with astonishment and details each photo and text that reads in them.

I got this for my grandsons 7th birthday. He looked over his books, chose this one, his mother sent me a picture. He had fallen asleep on the way home from the party, this book on his lap. The next time I saw him he was rattling of facts about sharks right and left. Mom says he memorized the book. Grandma's happy

My son loves this book! He's fascinated with sharks so needless to say, he has a bunch of books about them and this is one of his favorites. It is colorful and very informative. Great price as well. You're not likely to find one cheaper elsewhere unless you get real lucky.

We love learning and exploring books so this added to our collection. Lots of great info and the pictures keep the kids very interested. Grandson has read it thousands of times over and over. Holding up great and made with quality.

Good book for me as I am not a very strong reader. I am old but I read at a 2nd grade level. I really like the pictures, they're beautiful.

A beautiful hardcover book. I got this as a gift for my nephew, who is really into sharks. Very well-made book with lots of information in it. Awesome photos and very colorful too! Highly recommend!

It's a cute book (can I say that about a shark book?), good clear images. Didn't pop out hugely, just subtle. Kids were excited to get this, then questioned if anything was popping out-- had to show them how the coral looks a little above the page, etc.

My five year old son is shark crazy! This book is perfect for him. Great pictures and a lot of good facts to satisfy his interest. Highly recommend this book!
