# Behold A Red Horse: Wars And Rumors Of Wars

## Synopsis

What does the Bible say about the wars of the future? How can the classic literature of centuries ago impact today's (and tomorrow's) tactics and strategies? Which technologies are predicted in the Bible? Which ones have yet to be witnessed? In what ways have the economies of scale in violence been reversed? What is the threat assessment and risk analysis pending today? In what ways can a country be regarded as a one-bomb target? What are the likely implications of trans-humanism in the quests for the Super-Soldier? How could electromagnetic pulses emerge to become the Great Equalizer? Where is the safest place to be? Dr. Chuck Missler, an honor graduate of the U.S. Naval Academy at Annapolis, with an international background including three decades' experience in the board rooms of the defense industry, reviews the major Biblical references to warfare, the trends in modern weapons technology, and some of the current preparations for war among the major powers.

## Customer Reviews

This book has left me with more questions than when I started reading it. I will be re-reading this book after mulling over all the scenarios & seeking THE LORD for clarity. I will study those scriptures and seek understanding of these exciting & sometimes terrifying times.

Enlightening view of scriptures and our current technological abilities. Recommended reading. Why not five stars? The first two chapters are a repeat (annoyingly) of the first book in the series The White Horse.

As with all of Chuck Missler's material. It is informative, well researched and worthwhile. A good addition to any Christian library.

What a great book. Well written with lots of information that I did not know. I am anxious to read about the next horse in the series.

This book and others are recommended to anyone with a thirst for knowledge. Knowledge of God and his Son are as necessary as eating.

Another great book by Chuck regarding the book of Revelation!
