Grade Level: Preschool - Kindergarten

## **Customer Reviews**

In this Lego City Adventure you almost have it all - Police, City Workers, and an Ambulance. It is the story of Jessie and her dog Bear. Bear walks Jessie to and from school every day. Then one day he is not there after school. Jessie runs home and he is not there. So she starts to look for him. Just as it starts to rain, she finds him stuck under a gate in the park. She finds a police officer to help her, and he calls in more officers. They call in the city workers and finally they get the dog free. The Leveled readers are great books for young children. There are hundreds of titles in these formats, even across different publishers. What makes this particular series, The Lego City Adventures, so good is that little boys will be attracted to them because of the format and styles of both the stories and artwork. I can see young boys trying to make with Lego the scenes to act out from the books. As a Level 1 reader geared for Kindergarten to Grade 1, this book is intended to help with sight, word recognition, sounding out simple words and sentences. The book is fun, bright, and colorful and will keep a small child's attention.

This is a nice way to encourage beginning reading, especially if someone likes Legos! I don't think I will be buying the other more advanced readers that have a Lego theme, because they are more action packed.

This one shows compassion for a lost pet. Cooperation between parties to help others. Great moral to the story! Easy read and same excitement and happy ending to look forward to no matter how many times it is read!

Love this book. A great rescue story incorporating Lego City characters. If you have a Lego fan in your house, I recommend any of these Lego books.

My son loves the Lego series books, especially the ones that have a plot or action happening. This books are great for pre-schoolers who love to be read to or are just learning to read.

Both my daughter and son are nuts for this. A very nice story and fascinating for them, no big product placement set to buy. In fact I can't even find a pink-shirted mini-figure.

I love the story in this book and the principle of helping others when they are in trouble. Grandson loves these books. Good for preschoolers and kindergarteners.

These books are so enjoyable for preschool kids learning to read. The pics are so colorful and cute. We have bought many of these Lego stories and liked them all.
