My son, 9, has completed about one-third of the workbook. I think the workbook is great and

effective. Practice really does matter. My son tends not to read the directions or the tip sheets so he often gets many of the answers wrong. So I always have to remind him to read the instructions and the tips and I have him correct his mistakes. There are many worksheets for each subject so there's plenty of practice and the explanations are simple and understandable. When my son completes this workbook I will purchase another for him to complete again to reinforce what the workbook teaches. I would definitely recommend this workbook to anyone.

We bought all of the language arts books in this series and we enjoy the way they were written, actually purchased them for my daughter who is older than the age recommended, for review before some standardized tests, and her test scores improved.

I LOVE this book. It was exactly what I needed to help my brother with his grammar. I bought a second one so I can start studying with my youngest brother. Thank you.

My daughter had a problem with adverb and adjectives. This book really helped her understand the difference between the two.

The book was very interesting for young people studying grammar and made it fun!!!

An enjoyable workbook for reinforcing grammar concepts.

The ages really threw me off, but so Glad we got this. It's much needed review and works well with the vocabulary building books we are working on. Don't hesitate to get this. Adults could benefit!
