# Trace Numbers And Trace Letters Workbook For Preschool

## Synopsis

Preschoolers need lots of practice in order to improve their pencil hold and control. This is the workbook that targets alphabet recognition and tracing in preparation for formal education. The book is composed of letters in broken lines, which your child will trace to form a complete written letter. All letters are written in standard preschool paper to allow realistic practice writing.

## Customer Reviews

I bought this product because the front of the book shows arrows on the letters showing which direction to write. Also, upper and lower case are on the same page. The book does not have a single arrow in it and upper and lower case are not on the same page. Each upper case letter has it's own page and the lower case letters are all on two pages. Very disappointed.

Great workbook for my ESL tutee who was born with problems with his right hand. He is in physical therapy and needs to exercise his penmanship and numbers as his sequence is not proper. This is a great product so he can practice his letters and numbers. He is in first grade and is an enthusiastic and motivated learner. This gift will be his summer homework. His parents agree that vacation and homework are necessary as both want want their children to attend/graduate from college.

I love this workbook. Works very well for my 4 years old Daughter. And also she loves to trace numbers and letters. shes having fun and same time learning. Good thing i have purchased this workbook, shes happy, and that how i care. Thanks a lot.

I bought this for my toddler to practice writing, but the coating on the pages really didn't allow the ink to show up well. I expected a white board type of appearance after writing, but the ink seemed to stay wet and pool up in spots.

I bought this for my granddaughter to practice writing her ABC's and numbers. It is just what I've been looking for where I could not find it in other department stores such as Target or Walmart or even some book stores.

Very good for the beginner!

perfect for my preschool

It's cute, but I thought there could have been more pages. And no blank-ish pages for the kids to practice later on.....would not buy again.....
