I gave it a 4-4.5 stars on my goodreads page. I thought this was a great installment in the series and I can't wait to read what happens next. Since this is the 4th volume in a series, I can't really go into much detail, but to say please read this series, start from number 1 and you will be hooked.

This series has definitely gotten better with time. It is not the most brutal or disturbing work of horror out there, yet it still has a solid, nostalgic old school American horror vibe. Like a graphic novel version of a Wes Craven or John Carpenter slasher film, but with a bit more psychology and depth to it. Fairly priced and the cover/book designs are very professional and unique for a horror series. a

solid series I would recommend to any fan of horror, mystery, or crime genres.

I can't wait for the next volume! I prefer to read comics in volumes because of the paper and printing quality. The printing and colors of this volume are top quality, and the cover is no exception. If you've liked the previous three volumes or the previous comics you will enjoy this 4th volume.

Another great book in the series. It continues to have a great story line and always leaves you wanting more. I love everything about this book.
